UNLEASH YOUR AESIR / VISITOR INFORMATION

Website privacy

This notice covers your visit to unleashyouraesir.com, including the realm atlas and the Raven Pass encounter.

01 / Atlas and encounter

The atlas entries and tactical options run in your browser. Opening a realm or choosing an order does not submit your selection to the site.

02 / Language preference

When you switch languages, the chosen language can be saved in this browser's local storage. The preference applies to this website on the current browser.

03 / Page delivery

Loading the website sends ordinary request information, including an IP address and the requested resource, to the systems delivering the page.

04 / Local resources

The page loads its artwork, scripts and styles from unleashyouraesir.com. Its interactive sections make no requests to third-party services.

05 / Downloads

Opening a site document requests the PDF from unleashyouraesir.com. Your browser controls where a downloaded copy is kept.

06 / Clear your choice

You can remove the stored language preference using your browser's site settings. The next visit will use the browser language when supported.

The atlas and encounter are available without an account or contact details.
